CubeIQ announces the availability of **Private WatchList™**.

In order Financial Institutions to be able to create their own **Private Watch List**, include **government agencies inquiries** identification details and also include **National SDN, Watch and PEP Lists** in their Anti-Money Laundering Names Filtering software we have created a database software solution with the title **Private WatchList™**.

Private WatchList™ is a web based database software system with web browser user interface and MS SQL or MS SQL Express RDBMS with which end user manage and process individual and company identification details from various sources and insert them to PCS™ OFAC Reporter™ Names Filtering software Databank.
