Subject	CubelQ Announces PCS™ GDPR Compliance Application

CubelQ Announces PCS™ GDPR Compliance Application.

The **General Data Protection Regulation - GDPR** is a European Regulation (Law) on **data protection** and **privacy** in the **European Union** (EU) and **European Economic Area** (EEA). The GDPR's primary aim is to enhance individuals' control and rights over their personal data and to simplify the regulatory environment for international business. The regulation applies to **all Legal Entities** regardless of their location (inside or outside EEA) that process Personal Data, including just storage of such Personal Data, of individuals located in EEA, regardless of their citizenship.

GDPR contains provisions and requirements related to the processing of Personal Data of individuals located in the EEA one of which is the **right to have their Personal Data erased (GDPR Article 17)**, also known as the “right to be forgotten”. Individuals have the right to request from a controller the erasure of all Personal Data and the controller has the obligation to erase all Personal Data without undue delay for a number of conditions described in the regulation text

In order **PCS™** users to meet **GRPR Article 17** obligation, CubelQ has develop an application titled **PCS™ Customer Data Deletion – PCDD™** which allows **PCS™** users to delete and remove all customers' data that have been opened before a specified date.

PCDD™ application identifies customers that have been opened before the specified date, relates customer data, accounts, activity, cases and cases data tagged with a date before the specified date and erases them from **PCS™** database.
